

HEMINGFORD GREET

NEW COMERS

The citizens of Hemingford and the Hemingford Community Club are planning to have an entertainment and program for the sixty or seventy new families who have come to the Hemingford vicinity this spring, in the opera house Saturday evening, April 13.

The evening will be devoted to getting the new comers acquainted with the members of the Hemingford community and with each other, and to a very few short, helpful talks designed to help the new comers to make the most of Box Butte county's opportunities.

The following committees will attend to the work:

Committee on Names of New Comers—M. Hutton, chairman; C. O. Rosenberg and M. Nielsen.

Committee on Publicity—A. M. Vance, chairman; George W. Wilsey and C. W. Graham.

Committee on Program—F. L. Potmesil, chairman; W. L. Clark and Alex Muirhead.

Committee on Lunch—George Gabus, chairman; H. R. Olds and Alex Olds.

Committee on Finances—Chris. Hansen, chairman; C. W. Sharp and C. W. Lockwood.

Committee on Decoration—W. L. Clark, chairman; Otto Uhrig and George P. Jones.

Committee on Reception—K. L. Pierce, chairman; Rev. York, Father Steder, Rev. Brown, Rev. Kilness, C. J. Wildy, Peter Jensen, James Barry, N. A. Rockey, Henry Westlake, W. A. Randall, Ramond H. Thurston, Jno. Jelinek, G. L. Taylor, C. Klemke, John Gassling, Joe Wanek and Anton Uhrig.

The county agent is expected to be present to become acquainted with the new farmers and offer them the assistance of his office in promoting their welfare. Anton Uhrig, our commissioner, also is invited to represent the county officially. Mr. Muirhead, as mayor, will represent Hemingford.

It is realized that the new comers are more or less homesick for the places they have left, and it is thought that acquaintance and the forming of new friendships will do much to dissipate this situation.

Miss Agnes Kniest spent the greater part of last week in Omaha on business affairs. She ran across Federal Officer Maunier while there. "Dutch" says that the department has over 7,000 quarts of confiscated whiskey in the custom house. This will all be sent to Europe to the boys in camp.

W. R. Harper, of the Harper department store, has been very sick this week, an acute cold verging on pneumonia confining him to his home.

Charlotte Moll ring was off duty at the Bogue store the first of the week, due to a severe cold.

Alvin Nicholson drove over from Hemingford last Monday to visit the new Hup agency in Alliance.

Miss Carrie Fleck, of Denver, Col., and Daniel W. Thatcher, of Holland, were married by Stephen J. Epler at his residence last Saturday, March 30. The couple will make their home at Holland, Mr. Thatcher being employed in the potash factory at that place.

The Bogue store has a new, complete line of ladies' tailored goods that they received the latter part of last week. Otto Zamsow has taken particular pains to renew his stock with new, up-to-date woolen goods that wear and satisfy.

Rev. S. J. Epler was in Scottsbluff Monday evening conducting a missionary meeting. This was in the form of a rally to the colors.

Lester Olson, of the Herald force, has been quite ill the past week, almost having pneumonia. Dr. Peterson has been attending him.

M. E. Holloway and wife took a tour of inspection last Sunday, visiting Minature, Bayard, Scottsbluffs and Gering. The young couple are from the east and are very favorably impressed with the western country.

OBITUARY

Mrs. J. F. Yanders was born October 24, 1867, at York, Pa., departed this life March 31, 1918, age 50 years, 5 months, at her home in Alliance.

Mrs. Yanders had been ill for several months due to a cancer growth, and the most painstaking care and medical attention was unable to save her. Funeral services were held by Rev. Epler at the residence Tuesday afternoon, April 2, and interment made in the Alliance cemetery.

A husband, six sons, three daughters, two brothers and four sisters survive her loss. Death took from them one dearly beloved, for her kindly ways and conscientious devotion to duty made her presence while with them a blessing each day. She has gone to a better land, of no trouble and sorrow, to await the coming of the dear ones left behind.

Novel Use of Handkerchiefs.

With the Jacobite revolution of 1745 in England Pelham, bethinking himself of an old device which had served the government so well in the most critical period of Anne's reign, caused to be printed on several thousand handkerchiefs portraits of those of the young pretender's adherents who had escaped and were in hiding. These portraits, sent all over the country and hung upon every blank wall, led to the capture and execution of many fugitives.

Glass of Hot Water Before Breakfast a Splendid Habit

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate. In it to flush from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast and it is said to be but a little while until the roses begin to appear in the cheeks. A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of internal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

Constipation and Indigestion

These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night, and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She mixed Sulphur with it to Restore Color, Gloss, Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.
